An including and sustainable landscape for everyone

"Including" is about

Democratic landscape theory:
everyone has the right to
landscape

Landscape Participatory Science:
Design is co-creation between
local communities and designers/
planners/architects

Sustainable

A small scale urban feeling in Svene

The pupils expressed their need for an informal meetingplace

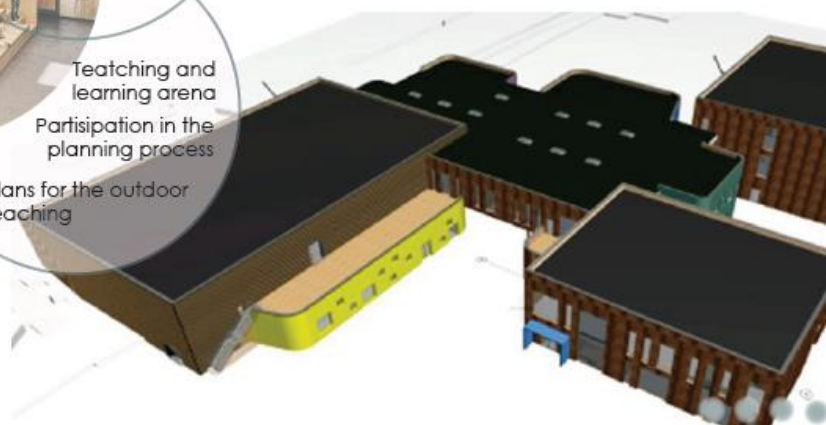

Meetingplace and marketplace go together

Ingvild Ottesen

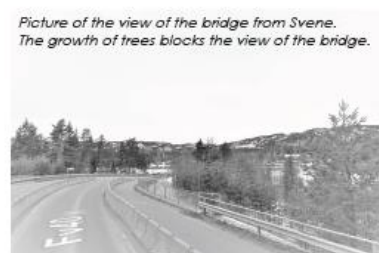

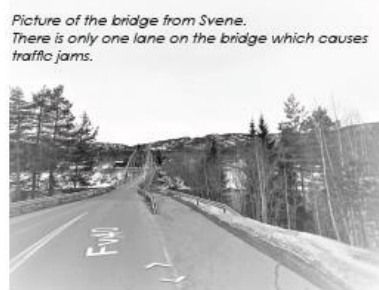

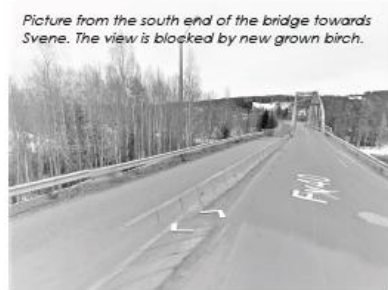

The new Flesberg school

- an important "nærmiljøanlegg" in Flesberg municipality

Jonas Collett

Svene - the entrance to Numedal

The center of alternative leisure activities for the youth

Attract youth from all of Flesberg, Kongsberg and the cabins

Tools:

- Nice views and open lines
- Lower the speed
- Create opportunities to stop
- Break barriers
- Sacred places

Pia Haukali

The river

Activate the river and the riverside as a means to a more sustainable and including Flesberg.

How can the river be used to connect the three villages and create a common ground, pride and identity?

The youth is the main focus but with an aim to create a development that is beneficial for the whole society.
